SELECTMEN'S DECISION ON
ONE MAN - ONE VOTE

Old Rochester Regional School Committee Members William Wood and Dorothea Pierce conferred with Selectmen at their regular meeting on Tuesday to learn the Selectmen's view on the representation issue of the Old Rochester Regional School Committee. Since the Spring of this year, since the V.O.T.E.R. (Voice of Truly Equal Representation) had first proposed reorganization to reflect the pattern in population that has led to a widening gap in the financial responsibility of the region's support by member towns, the issue has encountered many delays. A meeting of October 7 between Selectmen, V.O.T.E.R. representative Charles B. Dunn and Old Rochester Committee Members Pierce and Wood led to a meeting on Monday, November 15, between the Selectmen of the 3 towns, School Committee Members, the Superintendent, Mr. Dunn of V.O.T.E.R. and other interested citizens. This meet-

ing aired the subject without any change in the view of the towns of Marion and Rochester, whose Selectmen had previously announced opposition to any change in the make-up of the region. The Mattapoisett Board had reserved decision until the completion of the November 15 meeting.

Chairman R. William Blasdale of the Mattapoisett Board told Mrs. Peirce and Mr. Wood that following the Monday meeting he had composed his conclusions in written form which he read as his personal statement on the matter. Following the reading of the statement both Selectmen William Hubbard and Donald Linhares concurred and asked that the statement be issued as the view of the entire Board.

The statement reads:

"The Selectmen have now had ample opportunity to hear all of the arguments, both pro and con, on the 'One Man-One Vote' proposal for reorganization of the O.R.R. School Committee. We have discussed this matter thoroughly with representatives of 'V.O.T.E.R.' during our special meeting of October 7th. Last evening, the issue was reviewed once again - not only with representatives of 'V.O.T.E.R.' but also with the Boards of Selectmen of the two other member towns and the members of the O.R.R. School Committee.

"After all of these discussions, it appears that - while the question of the 'One Man-One Vote' concept may raise a valid consti-

tutional point - it is not the basic, underlying issue. The principal problem, rather, seems to be a basic difference in educational and/or fiscal philosophy between 'V.O.T.E.R.' and those who signed the current petition on the one hand, and a majority of the members of the current O.R.R. School Committee on the other hand. In other words, the basic goal in proposing this change in the composition of the committee is to secure a change in the philosophical make-up of the committee. The 'One Man-One Vote' concept is being proposed as a means of achieving this goal.

"To the extent that the proponents of this change reflect concern for the quality of education being offered at the Regional level, a desire to pursue a goal of excellence in basic education, and due regard for the ability of the taxpayers of all three towns to foot the bill - we endorse their stand wholeheartedly. The young people of this Region deserve the best in terms of basic education. The taxpayers of this Region deserve due consideration for carrying the financial burden, and some sense of security that their dollars are being efficiently and effectively spent. Many people in all three towns would like to see improvement in both areas, and the O.R.R. School Committee should take due note of these concerns.

"We are, however, compelled to conclude that adoption of the 'One Man-One Vote' proposal is not the best method to achieve the goals which many of us desire, and it may well result in other serious adverse consequences. We must, accordingly, oppose the current proposal, for the following reasons:

"1) There is no assurance whatever that increased Mattapoisett representation would result in a change in the educational and/or fiscal philosophy of the O.R.R. School Committee. To assume such a change, one would also have to assume that all voters in Mattapoisett share the same views, and that all their elected officials would mirror these views. Obviously, there can be no such assurance.

"2) Should the Town decide to proceed

with the current proposal, serious harm may be done, not only to current - but also to future regional relationships. Any regional association necessarily involves some degree of compromise of local autonomy. The present composition of the O.R.R. School Committee - with equal representation from each of the three towns - is a logical, workable compromise. To renounce this agreement would, at best, cause serious strains on our current working relationships with the other member towns. At worst, it might well seriously impair or preclude future regional solutions to problems which defy strictly local solutions.

"We are acutely aware that these conclusions are not shared by many residents of the Town of Mattapoisett. We are also aware that the representatives of 'V.O.T.E.R.' have committed a great deal of their personal time and financial resources in pursuing the adoption of this concept. It is indeed a major issue, and one which warrants serious consideration by each and every voter of the Town. The proper forum for this consider-

ation is the Town Meeting - where all voters can be heard, and where the will of the majority can be determined. Accordingly, our personal views aside, we will work closely with all parties to see to it that this question is brought before the Town Meeting at the earliest suitable date. We earnestly solicit the co-operation of the Boards of Selectmen in the other two member towns in taking similar prompt action."

Both Mr. Wood and Mrs. Pierce expressed disappointment with this view. Mr. Wood said that he had heard what he had expected to hear. He said that during the meeting of the preceding evening Mrs. Barbara Macy, chairman of the Regional School Committee, had stated that should reorganization take place according to the one man-one vote proposal, then the right of the smaller towns' students would be diluted. Mr. Wood said that in his view the converse of that statement is and has been the fact for some time - that the right of the Mattapoisett student is diluted by not being represented properly according to the town contribution. He said that the Selectmen had vacillated and finally have led a nickle and dime philosophy influence their thinking versus the millions of dollars that are spent on the Regional School system. Mr. Wood stated that the purpose of the proposed reorganization is representation based on population. The people of Mattapoisett deserve to be represented according to the percentage of their contribution, he stated, that is what he had promised in running for the committee and the stand that he is committed to pursue. Mr. Blasdale assured Mr. Wood and Mrs. Pierce that he will place no obstacle in the path of the voters to decide the issue in town meeting. He reminded them that the signed petition must be presented to the secretary of the Regional School Committee if it were desired that a town meeting be held in Rochester and Marion as well as Mattapoisett. Wood then asked if the Selectmen would support an article for consideration at the same town meeting for Mattapoisett to assure the cost of court action. He gave a figure of $15,000 as an estimate of possible cost. Selectmen Hub-

bard and Linhares said they would not support such an article. Mr. Blasdale said that he would support it.

Mrs. Pierce said that she was very concerned about the future. She said that pressure is building by the state to force complete regionalization of the complete school system - kindergarten through high school. She asked the Selectmen if such a prospect would cause any change in their present thinking. Mr. Blasdale replied that any such move would cause him to reconsider the issue.

liam Dexter of the 1812 House concerning 3 signs for the business. Mr. Linhares asked if they would forego one sign. The Dexters explained that the antique shop is off the main road and depends upon tourist trade. They said that the signs are neat and well maintained and reflect the quality of the business but that each one is vital to direct people to them. Mrs. Dexter said that she and her husband have always kept high standards because of their pride in Mattapoisett.

The Board of Selectmen agreed that the signs are attractive and necessary to the business and approved the application.

SHELLFISH LICENSE INCREASED

Shellfish Warden Antone Nunes appeared before Selectmen to ask that the fee for shellfish licenses be increased to $3.00. The Selectmen approved the increase unanimously. The Shellfish Warden said that the large size dead clams crowded in the newly opened areas are not the result of the closing of the area but are the result of a 7 year cycle of worms. He said that raking of the area will cause the clams to reestablish themselves in time.

EXHIBIT OF POTTERY & QUILTING

The gallery of the Marion Art Center will be exhibiting the pottery of Dorcas Pierce and quilting of Mary McFarland from November 26 through December 25th.

Dorcas Pierce was first introduced to ceramics by Donald Campbell at Colby Sawyer College in 1965. Since then she has been chiefly self-taught. Her first pottery showing was in Saunderstown, Rhode Island at the South County Art Association where, in 1974, she received the Ceramic Award in the South County Art Annual.

In Wareham she built a 30 cubic foot downdraft gas kiln, enabling her to produce high-fire stoneware and porcelain. She is now in Cambridge at the Pothateh Pottery Coop at 196 Broadway.

Mary McFarland, a native of Arizona, has had an interesting career criss-crossing the country using her artistic and sewing talents

SIMPLE SOLAR HEATERS

This Saturday afternoon, the Children's Museum will demonstrate to children 8 years or older how to make a simple solar heater, demonstrating the principles of using the sun's energy for our own uses. All the materials necessary will be supplied by the museum and children will be able to take their solar heaters home.

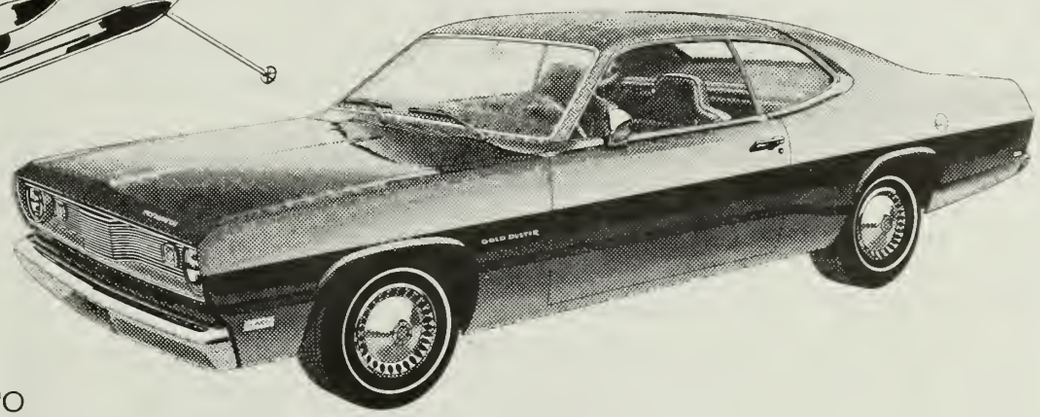
SPRUCE UP YOUR CAR FOR WINTER!



IF YOUR CAR IS BEGINNING TO LOOK THE WORSE FOR WEAR, LET OUR EXPERTS RETURN IT TO "SHOWROOM" APPEARANCE

... INCLUDING

RUST REPAIR

Yes, winter is the season, in particular, when your car's finish should not be neglected. The extremes of daytime sun and the night's bitter cold, the action of snow and ice and salt on the road attack scrapes and dents and make even small nicks a target for unsightly rust. Corrosion can dig in and rot out the body metal making an unsightly and weak mess of a once beautiful car. Don't let this happen. We will be happy to give you an estimate.

Some of the world's great banks are unbranched.

Like ours.

Not that we have anything against branches. It's just that most people like us right where we are. And they keep telling us so.

Instead of building branches, we've been building on. Putting it all together in one place. Right here on Route 6 where we're so easy to reach from practically everywhere. And the parking's easy.

Why don't you discover for yourself one of the world's great banks. What a real convenience our unbranched banking is. Either with Big Doc, our 24-hour teller out front. Or at our early-bird, triple-lane drive up window. Or in our main bank during regular hours.

Lots of banking options are yours when you bank with us. We're waiting for you. We want you to discover one of the world's great banks.

Ours.

VOICE OF DEMOCRACY SCHOLARSHIP PROGRAM

The Guidance Department at Old Rochester Regional High School announces that information about the VFW Voice of Democracy scholarship program has been received. This program is open to all 10th, 11th and 12th grade students.

"Students win more than awards and scholarships when they participate in the V.F.W. Voice of Democracy Scholarship Program," said Commander Jere Hill of the Benjamin W. Cushing Post #2425, in discussing the broadcast scriptwriting program conducted annually by the Veterans of Foreign Wars.

Some of the fringe benefits, according to Commander Hill, are increased self-confidence and poise, experience in communicating with others and valuable training in self-expression. For the state winners, there is also the broadening experience of a five-day tour of Washington, D.C., and the opportunity to make lasting friendships with the other state winners.

In the fifteen years that the Veterans of Foreign Wars has been sole sponsor of the Voice of Democracy Program, more than

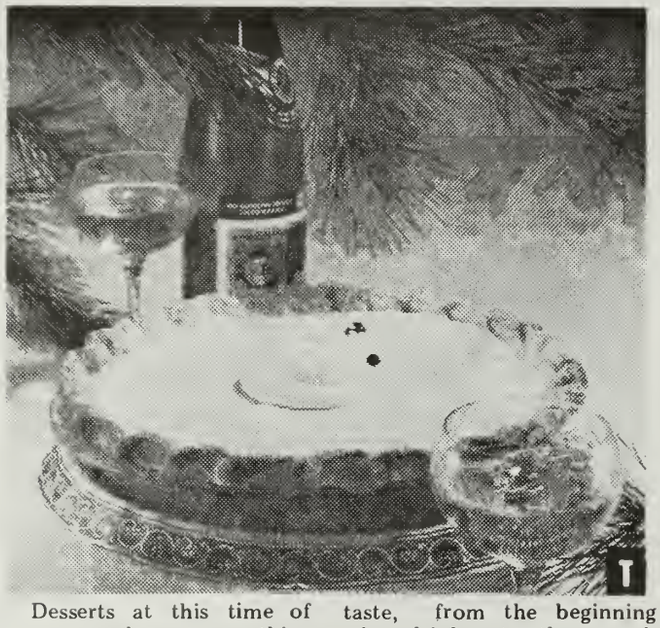
HOLIDAY WINE CHIFFON PIE



Desserts at this time of year are always something special. Fruit cakes. . .rich plum puddings. . .delicate cookies in all shapes and sizes. With everyone trying to outdo each other, a change of pace is always welcome -- such as this lovely light wine chiffon pie.

A full-flavored Rhine wine from Germany is the secret to this pie's success. Fragrant and delicate, it blends well with the creamy sweet flavor of the pie. In fact, it's almost a haunting taste. . .you know at once that there's something unusual about this pie. . .but you're not quite sure what it is.

Wine chiffon pie makes a pleasant contrast to the heartier-than-usual meals being served in so many homes at this time of year. Its lightness tops off any meal. And because of its elegance, it makes a perfect late evening dessert when friends stop by.

You may want to serve some of the same Rhine wine used for the pie during dinner. Americans have found these white wines from Germany pleasing to practically any taste, from the beginning wine drinker to the experienced connoisseur.

WINE CHIFFON PIE

1 teaspoon unflavored gelatin
1/3 cup sugar
4 egg yolks
2/3 cup Rhine wine

4 egg whites
1/4 teaspoon salt
1/3 cup sugar
1/2 cup heavy cream
1/4 teaspoon vanilla
1 baked 9-inch pastry shell

Mix gelatin with 1/3 cup sugar. In top of double boiler, beat egg yolks. Stir in wine and then gelatin mixture. Cook and stir over boiling water about 5 minutes, or until thickened. Remove from heat.

Beat egg whites with salt until fairly stiff; then gradually add 1/3 cup sugar, beating until stiff peaks form. With same beater, beat cream with vanilla until stiff. Fold wine mixture into beaten egg whites; then fold in whipped cream. Pour into pie shell. Chill until set. If desired, whip additional cream for garnish. This pie is best when served the same day it's made.

Put your dishes to bed

We have an outstanding collection of quilted placemats and napkins.

tation of National Science Foundation curricula into Center School elementary classrooms.

The goal of the $101,000 grant from the National Science Foundation is to provide local school systems with the capacity to implement and effectively maintain a NSF elementary science curriculum. Thirty school systems across the state are participating in the program titled the Massachusetts Elementary Science Implementation Project (MESIP).

Under the direction of Dr. George T. Ladd, Boston College, Associate Professor of Education, the local "implementation team" of Katherine L. Aurich, principal of Center School; Clara Morgan, grade one teacher; and Deborah Valentine, grade three teacher continues to receive in-service training both on-site and at the State Regional Educational Centers.

According to Dr. Ladd, the local teams are now assuming the greater portion of the responsibility to oversee the installation of the elementary science curriculum at the local level by providing in house assistance to other teachers and by carrying out other supportive activities.
